

Luxury Aluminium Front Doors

Introduction

Our Luxury aluminium residential front doors are one of our most exciting products. These all aluminium doors provide strength and security, slim lines and great looks. Using the latest technology they provide high performance and thermal efficiency.

By using the strength of aluminium these aluminium doors allow you to maximise glass area and minimise the amount of frame. Whether you live in a traditional or a contemporary home you will discover an extensive range of styles, furniture, colours, threshold options, glass and glass designs to suit your home. Also available are a range of made-to-measure side panels, toplites and sidelites. Create a sensational impact and a lasting impression with durations Luxury Front Doors.

Features

- These Luxury Front Doors match our Smarts 47 Windows, Heritage 'Stepped' Design Windows, Penthouse Patio Doors and Durafold 1000 Bi-folding Doors.
- Extensive range of styles and designs.
- Various configurations of glass and solid panels are available for each style, such as glass in the top and panel in the bottom, glass top and bottom, or a single panel.
- Available with matching sidepanels, toplights and sidelights.
- The optional Low Threshold greatly reduces the step-over required.
- These all aluminium doors are thermally broken using the latest polyamide thermal barrier technology - resulting in a highly thermally efficient front door.
- High security locking consisting of a hook lock top and bottom of the door, and a dead-bolt and a latch, to firmly secure the door.
- Can be made to PAS23 PAS24 specification if required.
- Due to their modern design, these doors exceed the current requirements for Document L Oct 2010 for new build, as well as refurbishment projects.
- Slim-line 47mm or 70mm deep aluminium profiles, with an outerframe of just 46mm wide and a glass sight-line of 125mm.
- Slim-line butt hinges on our aluminium doors are a lot slimmer and cleaner than unsightly flag hinges.
- Lever-lever or lever-pad handles in a variety of finishes.
- Direct fix, or Equal leg frame options, with the ability to put trickle vents in either a head extension or deep frame.
- Glass options include, square and diamond leads, Georgian / astragal bars, decorative & coloured glass, obscure textured glass - that can be made to your exact specifications.

Key
 ■ Glass
 □ Aluminium Faced Panel

Our aluminium panels are painted to exactly match the colour finish of the doors.

Only a few different colour finishes are illustrated here. You can also choose to have different colours inside and out with our dual colour option.

Colours

Choose from a range of standard colours (see below) or any of over 200 different RAL colours in any finish. You can even choose to have different colours in and out, for example blue outside and white inside.

Please note: these representations of colours are only intended as a guideline, and Duration Windows cannot be held responsible for any discrepancies between these and actual painted colours.

Glass

When it comes to glass you can literally have anything you like. We can match your existing glass, or you can choose something from our extensive range of leaded glass, obscure glass or decorative glass made to your exact specifications.
