Chelton® Slim-line Handles

Modern Window Handles

An exciting new concept in window handles, our patented slim-line Chelton® Modern handles look like no handles you have ever seen before. Blending into the window frame, the discreet, curved, slim-line design looks great on your new windows.

The flush design barely protrudes into the glass sight-line and will not catch on your nets, blinds or you.

The newest and most innovative handle range in the World. Rated five stars for innovation.

Benefits & Added Security

Durations patented Chelton® handle is slim, discreet and installed directly into the window bead - concealing the handle fixings and making these handles tamper proof. Their flush design means they will not catch on your nets or blinds. The handles have no visible fixings and do not require screw caps - giving them a clean appearance.

High Security Chelton Secure™ Locking

These handle operate patented Chelton Secure™ Locking. This is a high security multi-point all round window locking system with six plus locking points securing the window on three sides rather than one. When combined with sash jammers on the hinge edge of the window you gain all round window security.

Features

- Available for our Smarts & Blyweert Beaufort aluminium windows.
- Slim and discreet design.
- Minimal protrusion into the glass sight-line.
- Designed to not catch on your nets, blinds or you.
- Key locking facility.
- Drives Chelton Secure™ locking.
- Fitted directly into the bead providing; clean lines, concealed handle fixings and tamper proof.

Schools & Government Buildings

These slim-line handles have many anti-ligature aspects and can be upgraded to full anti-ligature on request. Full anti-ligature may be required for windows fitted to schools, public or government buildings.

Art Deco Handles

Art Deco Window Handles

Durations patented Chelton® Art Deco Handles have been designed to look like traditional steel window handles. They have an art deco style that fits in nicely to any period property, and for example when replacing old steel windows.

The newest and most innovative handle range in the World. Rated five stars for innovation.

Benefits & Added Security

Durations patented Chelton® handle is slim, discreet and installed directly into the window bead - concealing the handle fixings and making these handles tamper proof.

High Security Chelton Secure™ Locking

These handle operate patented Chelton Secure™ Locking. This is a high security multi-point all round window locking system with six plus locking points securing the window on three sides rather than one. When combined with sash jammers on the hinge edge of the window you gain all round window security.

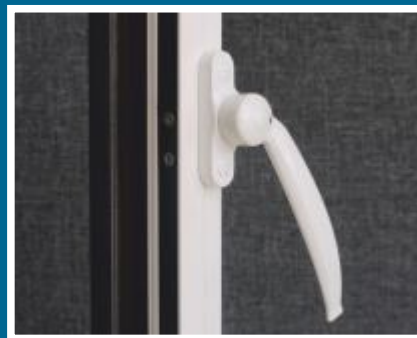

Features

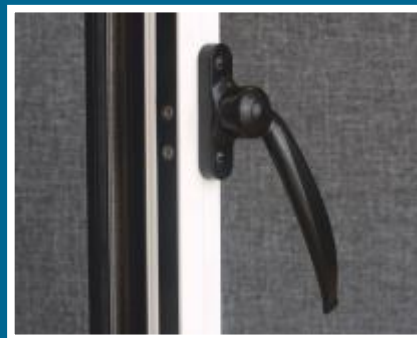

- Available for our Smarts & Blyweert Beaufort aluminium windows.
- Art deco design emulates traditional steel window handles.
- Key locking facility.
- Drives Chelton Secure™ locking.
- Fitted directly into the bead providing; clean lines, concealed handle fixings and tamper proof.
- Perfect for use on steel replacement windows.

Just One Style From The Range
