Magnetic Manual Blinds

These Venetian style blinds are installed inside the double glazed sealed units, fitting neatly between the two sheets of glass. The slat raising, lowering and tilting function is achieved using a magnetic transmission through the glass, thereby guaranteeing the unit's hermetic seal.

The system is very simple and easy to use and functions with surprising grace and speed. Raise, lower and tilt functionality is achieved by simply sliding the push block along the side border rail.

Key Features

- Venetian style blinds with high quality aluminium slats.
- Ease of installation; already installed inside the sealed units.
- Easy to operate using a magnetic slider for up/down & tilt functions.
- Optimum control of light and heat in rooms.
- Slats are available in a large range of colours.
- Top and guide rails available in a large range of colours.
- Ensures total protection against dirt, dust or weather conditions and therefore do not require any maintenance.
- Designed with safety in mind.

Electronic Blinds

Our integrated Venetian style blinds fit neatly inside the double glazed sealed units keeping them dust and maintenance free. They are battery operated using the actuator provided with no electrician needed. The actuators are charged automatically using the supplied solar panels and operate the blinds with raising, lowering and tilting function.

As standard, these blinds are remote controlled. They can also be controlled from the panel, using the touch/swipe system.

Key Features

- Venetian style blinds with high quality aluminium slats.
- Ease of installation; already installed inside the sealed units.
- Optimum control of light and heat in rooms.
- Slats are available in a range of 10 colours.
- Ensures total protection against dirt, dust or weather conditions and therefore do not require any maintenance.
- Designed with safety in mind with no cords.
- Solar powered - no need for an electrician to install
- Slats are able to tilt to different angles
- Energy saving
- Radio remote control supplied as standard
- Touch control actuators
