# *Stylish* & Secure **Aluminium Front Doors**

Make a great first impression with our Elegant Doors which have been designed to complement homes of every description – from the very modern to ultra traditional. The Elegant Door range is the result of extensive research and careful design.

Having closely examined all the entrance doors currently available and assessed their various strengths and weaknesses, we have developed the next generation, British made aluminium composite entrance door, which delivers all the great features that homeowners want, without any of the inherent weaknesses of other materials.

## Key Features

- Beautiful aesthetics – elegant styling, with a lustrous paint finish, perfectly matched on the door and frame.
- Outstanding security – tests show our doors exceed all industry standards.
- Superior weather performance – double rebated weather seals give you double the protection.
- Thermal performance – our doors will keep your home warm and your energy bills down.
- Long life and great value - your door won't bow or fade. It will keep looking as good as the day it was installed.
- Virtually maintenance free – a simple wipe down will retain its pristine looks.
- Thermally efficient with U-Values as low as 1.2W/M²K.
- 'Polyamide' thermally broken aluminium profiles.
- EPDM gaskets provide enhanced weather protection.

## Options

- 16 designs to choose from.
- Low threshold available.
- Range of projection cills available.

## Performance

Our doors are designed to provide the best performance possible. With the longevity of aluminium and minimal maintenance needed these doors are designed to last the test of time.
