Stylish, Efficient **& Impressive**
Penthouse Plus LS
Lift and Slide Patio

The Penthouse Plus LS is based on the design of our popular Penthouse Plus S that uses a unique lift and slide mechanism and offers maximum glass area, resulting in increased natural light and unobstructed views. These doors are capable of large widths and heights and despite their weight, the high specification hardware enables them to lift and slide easily with minimum effort. Constructed from strong low maintenance 'Polyamide' thermally broken aluminium profiles, these doors deliver thermal efficiency and high performance.

Our Penthouse Plus LS patio doors are versatile and offer many different styles and designs. There are a range of panel configurations to suit any project, and a triple track system with three panels can achieve approximately a two thirds clear opening. Not only are these doors flexible, but they are practical too. They have a specially designed threshold that enables you to bring the internal floor flush with the top of the threshold, minimising any trip hazard. Suitable for many applications, these doors will fill your property with light and make the most of a beautiful view.

Key Features

- Multiple panel configurations offering greater flexibility.
- Unique lift and slide mechanism.
- Anti-slam soft closer available upon request.
- Strong, low maintenance profiles give unobstructed views with maximum glass and light.
- Extensive range of over 200 single or dual colours available.*
- Also available in a range of textured colours.
- 'Polyamide' thermally broken profiles for superior efficiency.
- Panels can be made up to 2500mm wide and 2500mm high.**
- Available with slim-line interlock of just 35mm.
- Internal beaded system providing added security.
- Runs on stainless steel tracks.
- Multipoint high security locking consisting of 4 heavy duty bolts.
- Specially designed threshold may be flush fitted level with the internal floor, minimising any trip hazard.

Options

- Available in 2, 3, 4 or 6 panel configurations.
- Two or three track options available.
- Range of projection cills available to suit your build.
- Colour matched aluminium quad trim available.
- Head extension for trickle vents.

Performance

U-Value	Air Permeability	Water Tightness	Wind Resistance
As Low As* 1.6	 TBA	 TBA	 TBA
