Penthouse Plus S
High Performance Aluminium Inline Sliding Patio Door

DURATION WINDOWS
These superb sliding patio doors have been designed to offer maximum glass areas, resulting in increased natural light and unobstructed views. These doors are capable of large widths and heights and despite their weight, the high specification hardware enables them to slide easily with minimum effort. Constructed from strong low maintenance ‘Polyamide’ thermally broken aluminium profiles, these doors deliver thermal efficiency and high weather performance.

Our Penthouse Plus patio doors are versatile and offer many different styles and designs. All panels can slide, and a triple track system with three panels can achieve approximately a two thirds clear opening. Not only are these doors flexible, but they are practical too. They have a specially designed threshold that enables you to bring the internal floor flush with the top of the threshold, minimising any trip hazard. Suitable for both commercial and domestic applications, these doors will fill your property with light and make the most of a beautiful view.
Key Features

- All panels can slide offering greater flexibility.
- Strong, low maintenance profiles give unobstructed views with maximum glass and light.
- Extensive range of over 200 single or dual colours available.*
- Also available in a range of textured colours.
- ‘Polyamide’ thermally broken profiles for superior efficiency.
- Panels can be made up to 2500mm wide and 2500mm high.**
- Available with slim-line interlock of just 35mm.
- Internal beaded system providing added security.
- Runs on stainless steel tracks.
- Multipoint high security lock consists of 4 mushroom bolts and a hook lock.
- Specially designed threshold may be flush fitted level with the internal floor, minimising any trip hazard.
- Exceeds current building regulations.

Options

- Available in 2, 3, 4 or 6 panel configurations.
- Two or three track options available.
- Range of projection cills available to suit your build.
- Colour matched aluminium quad trim available.
- Head extension for trickle vents.
