Stylish & Secure **Aluminium Doors**

Premium Plus Doors use the natural strength of aluminium to provide maximum glass and light. They are strong and secure with a full range of quality hardware and high security multipoint hook locking. These doors exceed the Building Regulations for new build, replacement and refurbishment projects, whilst achieving excellent thermal values. They are highly versatile and can be specified for a wide range of applications including residential housing, schools and office entrance doors.

The Premium Plus door has been designed specifically for the UK market and can be manufactured as both single and double doors, in a wide range of styles and designs. These doors will make an individual statement and can be painted in any of over 200 different single or dual RAL colours. Bring comfort and peace of mind to your home, with our secure and thermally efficient Premium Plus aluminium doors.

Key Features

- A range of standard colours are available, or any of over 200 different RAL colour finishes.
- Dual colour finish also available (e.g. grey outside, white inside).
- 58mm or 70mm outerframe for various applications.
- Can be fitted direct to brick or into new or existing timber frames.
- Full range of hardware in a wide range of colours.
- Can produce single or double doors, and can open in or out.
- 'Polyamide' thermally broken aluminium profiles.
- Incorporates high security multipoint locking.
- Made-to-measure to your exact specifications.
- Can be customised with a range of midrails, transoms and solid aluminium panels.
- Internally glazed for 24mm or 28mm sealed units.
- Matches our Premium or Premium Plus Window range.

Options

- Range of contemporary panels are available to suit any project.
- Range of frames available to suit design and building needs.
- Can use chamfered or square beads to suit your style needs.
- Range of projection cills available.

Performance

Our doors are designed to provide the best performance possible. With the longevity of aluminium and minimal maintenance needed these doors are designed to last the test of time.

Made To Your Specifications

Contemporary Panels

Below are the stylish contemporary panels available for our Premium Plus doors. These panels can be customised with different colours, glass and trim details to suit any project and design aspirations.

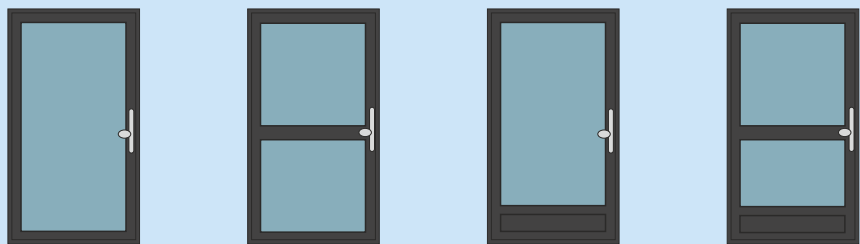

Stainless steel surround trims are available on most door designs and can be added to the inside and outside panel faces, or left plain. The glass cutouts can also be customised with a range of plain, textured or frosted glass.

Styles

Our Premium Plus doors are available as single or double (French) doors with a choice of opening in or out. Below are some design examples that we can create. We can use a range of plain panels or glass to create different looks as shown below. Please also see our wide range of contemporary panel designs.

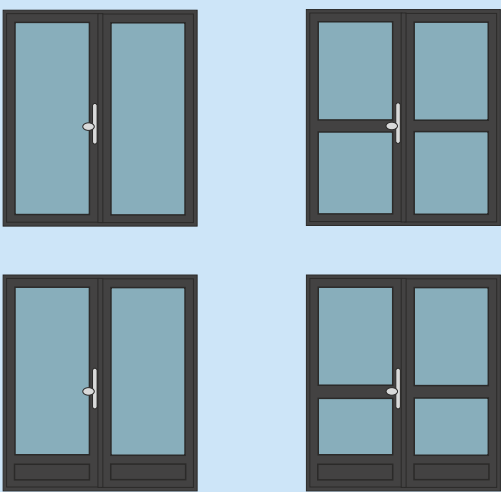

Single Doors

Front Doors

French Doors

These are only a few design options available. Doors are customisable to suit the design needs - please ask.
