The Royale Door

Our Royale steel replacement aluminium doors are designed as an extremely slim-line, thermally efficient replacement for old steel doors. The aluminium profiles use the latest polyamide thermal break to achieve excellent U-values inline with the current building regulations. The profiles are designed to replicate the stepped classic look and feel of traditional W20 steel doors.

These Royale steel replacement doors are suitable for new build as well as replacement & refurbishment projects and are suitable for use in listed buildings and conservation areas. These doors will retain the classic look and character of your home. They match our Royale Windows and share their slim lines and authentic looks. They are available as open in or open out, single or double doors and have a high security multipoint lock, which includes a latch and dead bolt.

Features

- Available as single doors or double doors.
- Can be manufactured to opens in or out.
- Steel replacement doors to match our Royale windows.
- Slim sight-lines polyamide thermally broken aluminium profiles.
- Thermally efficient, excellent U-values inline with current building regulations.
- Multi-point locking, including a latch and dead bolt.
- Non-rusting aluminium profiles replicate W20 steel doors.
- Stock colours are matt white and black/white (dual colour).
- 24mm double glazed argon gas filled sealed units, or aluminium clad composite door panels.
- Open out doors are internally glazed, while open in doors use a high security externally glazed system.
- Suitable for new build as well as listed buildings, replacement and refurbishment projects.
- Finish your installation with our unique colour matched aluminium quad trim.
