# The Heritage Stepped Look Window

The Heritage stepped look window system is a thermally efficient replacement for steel windows. These stepped windows use the latest technology and are still a fraction of the cost of steel windows. Our Heritage windows use a modern 'Polyamide' thermal break giving them an excellent thermal performance.

Now you can easily and affordably replace your old, single glazed, rusty steel windows with non-rusting, secure, steel look-a-like windows with modern energy efficient double glazing. What's more you can do so without compromising the character of your period property.

Our slim-line profile emulates the look and feel of traditional steel windows. Whether they are combined with new or original hardwood frames, or fitted directly to brick, these windows can be made to replicate your existing windows.

## Features

- Slim-line 47mm 'Polyamide' thermally broken, non-rusting aluminium profile.
- Outer frame: 36mm; Outer frame - Sash: 56/59mm.
- Modern multi-point locking options including Chelton Secure™.
- Traditional furniture options.
