WINDOWS

The Royale

Stepped Window

At just 33mm front to back, our Royale Steel Replacement Windows are one of the slimmest thermally broken aluminium window systems on the market. With slim profiles replacing steel windows has never been easier - with no cutting back of plaster, brick or wooden sub-frames, speeding up installation times and reducing costs.

Our Royale Windows use the latest 'Polyamide' in-line thermal break, which makes them highly thermally efficient. High performance glass filled with Krypton gas is used to provide maximum thermal efficiency. The window is not only thermally efficient, but it is also highly secure, with modern high security locking.

Features

- The perfect affordable replacement for old steel windows.
- Available with coupled or transom construction options.
- Slim thermally broken aluminium profiles with a depth of just 33mm.
- Maintenance free aluminium.
- Ease of installation - no need to cut back plaster, brick or existing subframes.
- Can be installed into existing or new timber subframes or direct to brick.
- Ultra slim sight-lines.
- Highly secure with modern shoot bolt locking.
- All glazed with high specification, Diamant / Planitherm Total+, Krypton gas filled double glazed sealed units.
- Uses the latest in-line Polyamide break to achieve excellent thermal performance.
- Suitable for use in period properties, listed buildings, heritage and conservation areas.
- Standard colours include White, Black or dual Black Out White In (all matt finish)
- Also available in over 200 single or dual RAL colours.
