Aluminium Specialists Since 1985

# Bi-Folding Windows

## About Our Bi-folding Windows

Our aluminium bi-folding windows smoothly glide open - creating extra room for entertaining and bringing the outside in. We are able to produce these windows in many different configurations. Our Bi-Folding windows can open into the room or outwards. Depending on the width of your opening our Bi-fold Windows come with between 2 and 6 panels, with each folding panel being up to 1 metre in width.

The Duration bifold windows come in many different colours and finishes, from standard white and silver anodised to woodgrain effects and RAL colours. You may also have your window in a dual-colour - where the inside and outside colours are different e.g. black outside and white inside. With so many traditional and modern finishes your folding windows can blend in with your existing buildings structure or make a modern contemporary statement.

Duration Windows, Unit 4, Charfleets Industrial Estate,
